

The eNote feature is in each activity within each course. In order to write eNotes, you must place the mouse cursor into the eNote box and start typing in your own notes. The vocab words in each lesson will automatically appear, so you only need to type in the definition for each word. The system automatically saves eNotes.

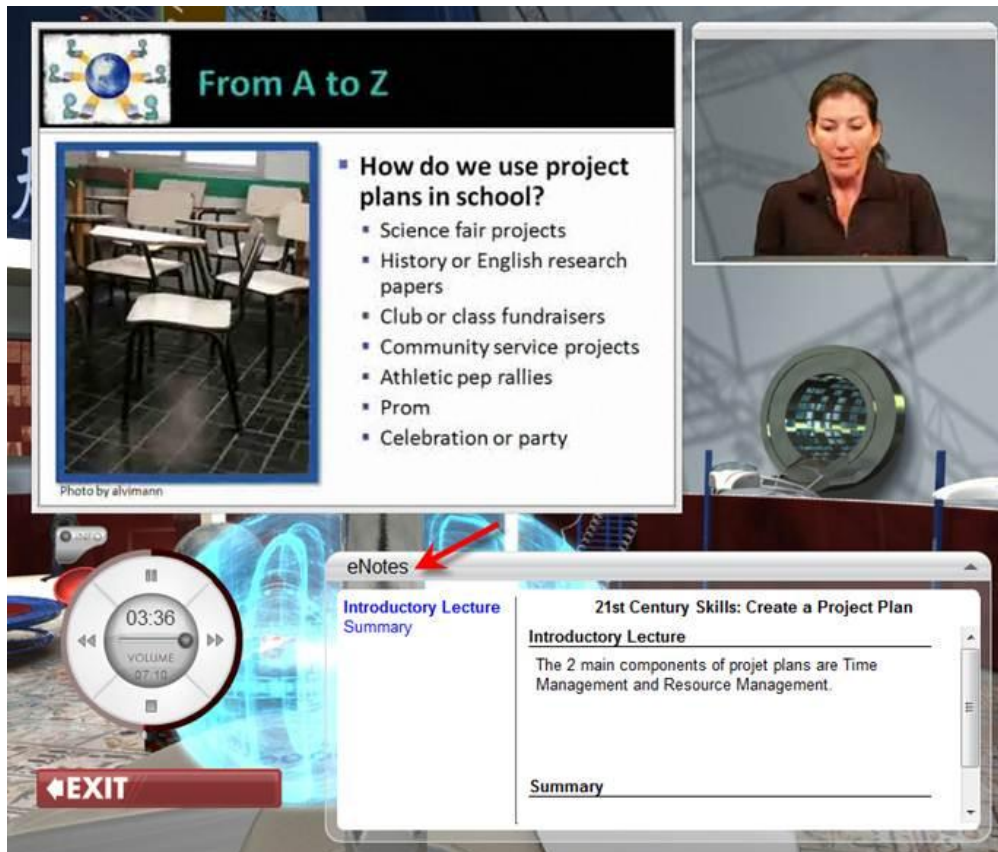

The screenshot displays a 'Vocabulary Assignment' window. At the top, it says 'Vocabulary Assignment'. Below this is a scrollable yellow card with the following content:

- NEXT WORD:** tendon
- DEFINITION:** Tough connective tissue that joins skeletal muscles to bone.
- EXAMPLE:** The laceration of a tendon can result in the inability to flex or extend at a joint.

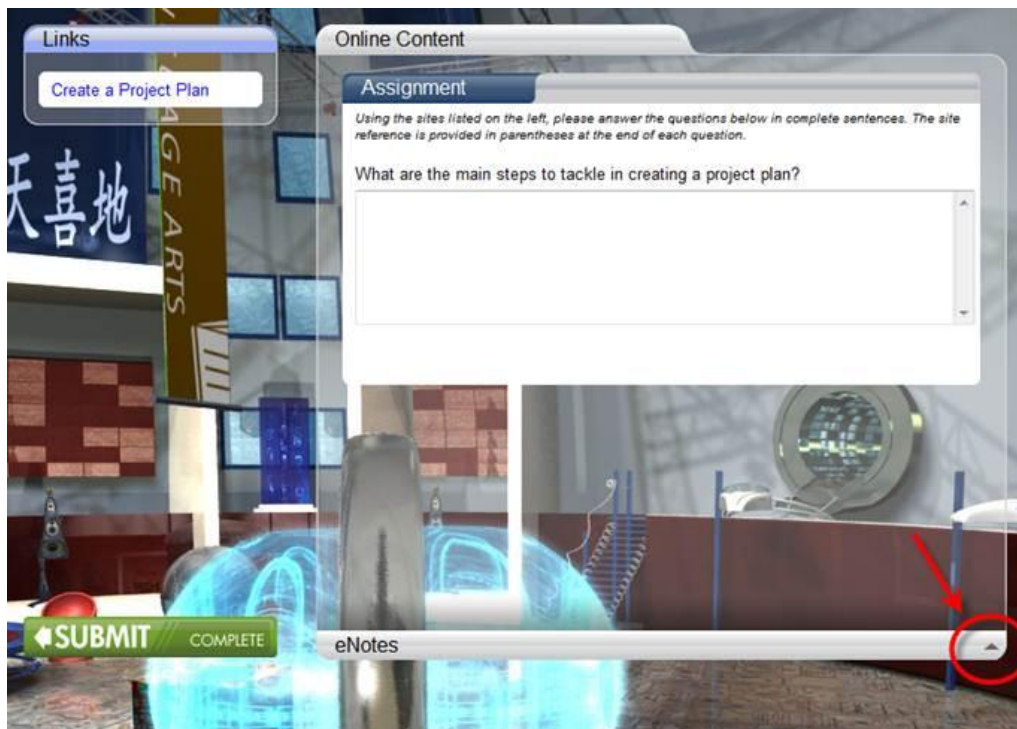

Buttons for 'OPTIONS' and 'GO!' are located at the top right of the scrollable area. Below the scrollable area, there is a sidebar with a 'Vocabulary Summary' for 'The Muscular System'. The summary lists the following terms:

- myosin:
- actin:
- neuromuscular junction:
- acetylcholine: Neurotransmitter that diffuses across a synapse and produces an impulse in the cell membrane of a muscle cell.
- tendon:

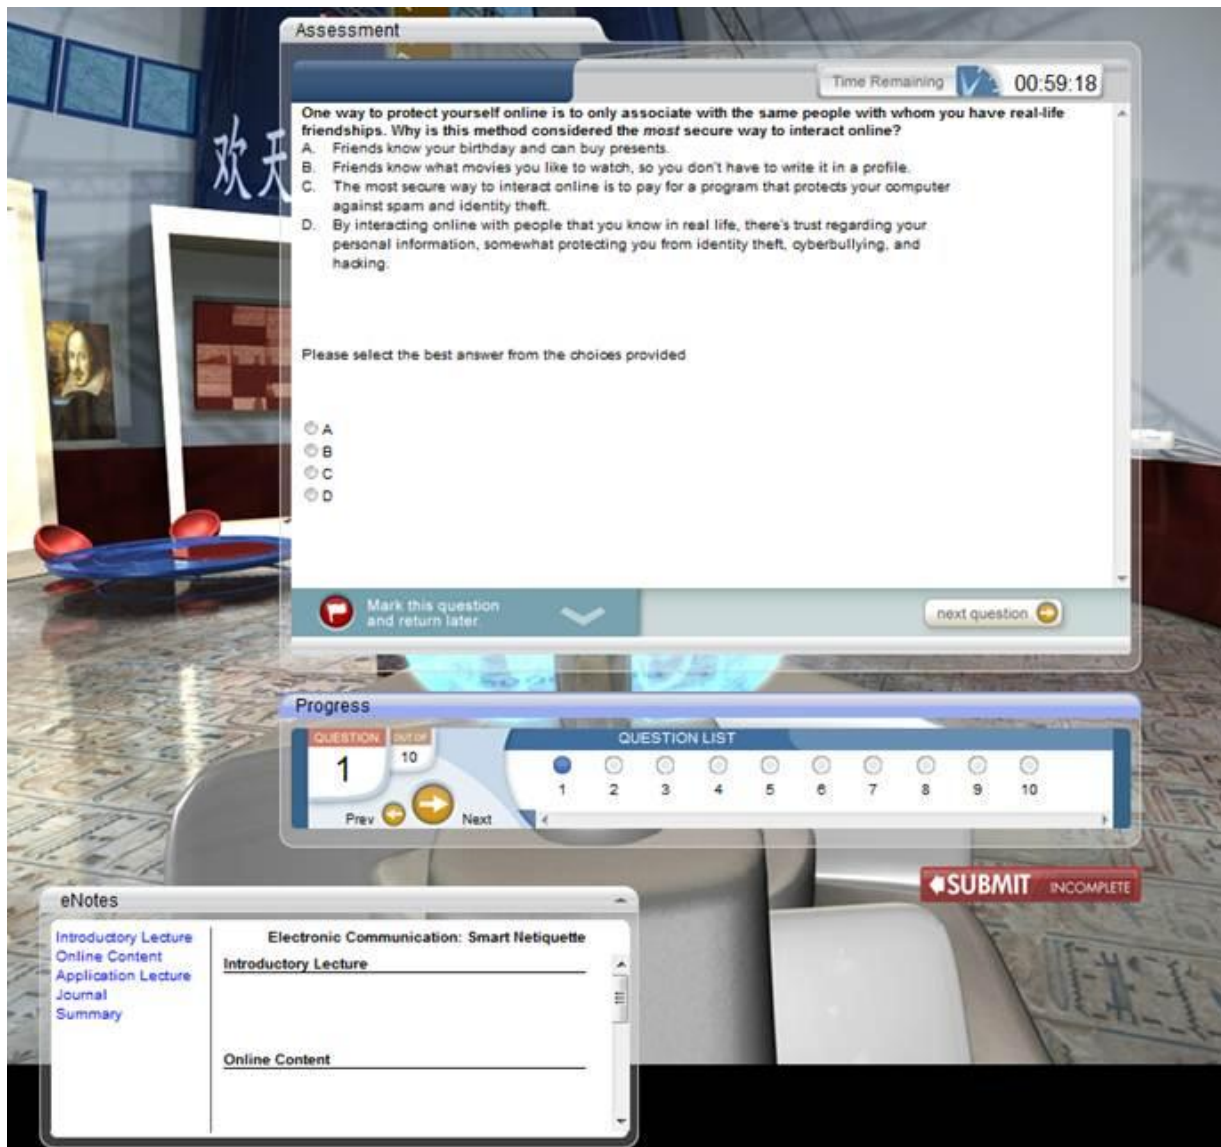

An 'EXIT' button is visible at the bottom left of the interface.

Sometimes eNotes may appear to be hidden, but you can expand eNotes by clicking on the arrow, to retrieve and view your notes.

You have access to view and use eNotes in assessments such as the quiz or topic test; however, if you didn't take eNotes for a particular lesson, a blank eNote box will appear.

The system keeps track of all eNotes that you acquire throughout your courses and each activity.

Step 1 – Go to the Organizer within your virtual classroom

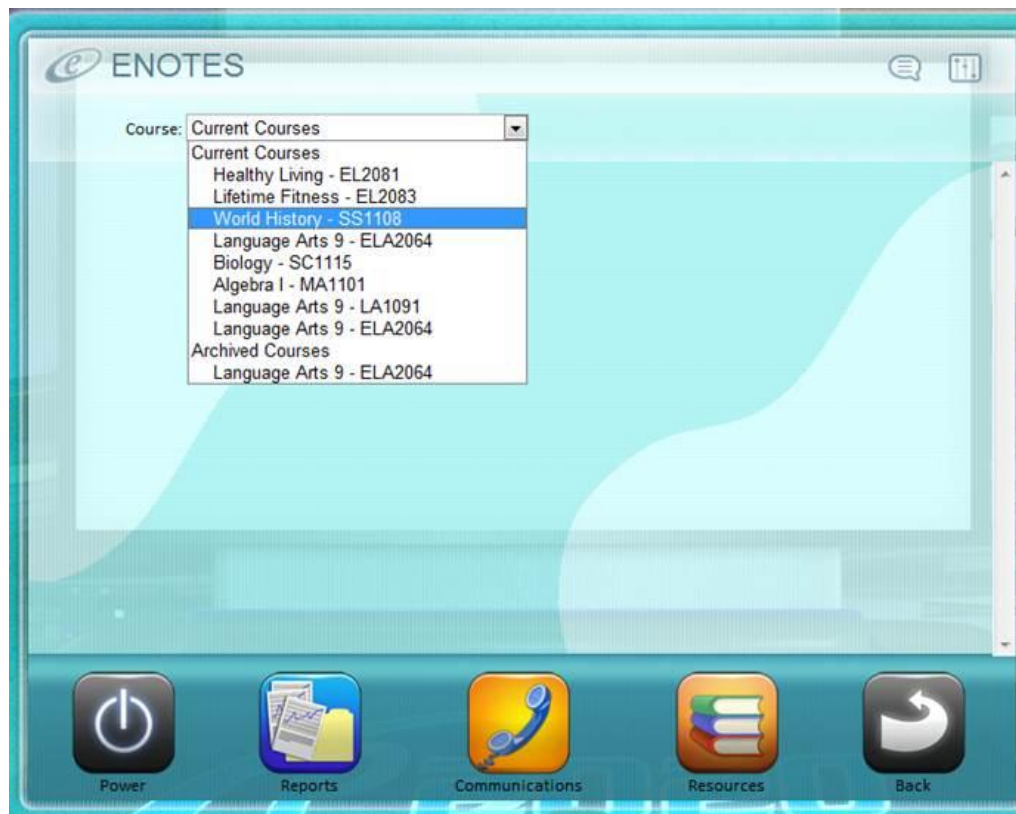

Step 2 - Click on Reports

Step 3 – Click eNotes

Step 4 - Select the class you want to view eNotes for

Step 5 – Your notes will appear below

The screenshot displays the ENOTES application interface. At the top left, the logo "e ENOTES" is visible. In the top right corner, there are icons for a chat bubble and a list. Below the logo, a "Course:" dropdown menu is set to "Language Arts 9 - ELA2064". The main content area features a dark header with the text "21st Century Skills: Create a Project Plan". Below this, a white box contains the following text: "Introductory Lecture: The 2 main components of projet plans are Time Management and Resource Management. The Fours W'd". A "VIEW" button with a plus icon is located at the bottom right of this white box. At the bottom of the screen, there is a teal navigation bar with five icons: a power button, a folder with reports, a telephone, a stack of books, and a back arrow. Each icon is labeled with its respective function: "Power", "Reports", "Communications", "Resources", and "Back".
